STI College Santa Rosa

Bachelor of Science in Information Technology, cum laude

2020 - 2024

PROFILE

Passionate and diligent software and web developer with full-stack experience and knowledge of agile methodologies. Seeking opportunities to apply technical skills and contribute to innovative projects in a dynamic environment.

INTERNSHIP EXPERIENCE

Web Development Intern

Nucleio Information Services   Feb 2024 - May 2024

- Helped develop a vehicle rental web app that calculates rental prices based on distance and integrates with Odoo for sales order management.
- Designed front-end interfaces using CSS, Bootstrap, and Vue.js, and developed the backend with PHP and Laravel to create sales orders in Odoo.
- Implemented custom modules in Odoo, adding various fields and functionalities to enhance the application's capabilities.
- Participated in all SDLC phases, from requirements gathering to designing, implementing, testing, deploying, and maintaining the application.
- Performed regular backups on DigitalOcean, ensuring data integrity through snapshots.
- Developed and executed bash scripts on DigitalOcean to automate tasks and improve server management.

PROJECTS

- **Bayanihan Transpo** | Laravel, Vue JS
  - Developed a vehicle rental web app with distance-based pricing.
- **Freschery** | PHP, MySQL
  - Developed an e-commerce web app with cart and checkout system.
- **Library Management System for Santa Rosa Educational Institute** | Java, MySQL
  - Created a library system in Java with MySQL for managing book inventory, circulation, user data, reports, and backups.
